

Brain Products GmbH solutions for neurophysiological research

HISTORY

Brain Products ...

- was founded by Alexander Svojanovsky & Henning Nordholz in Munich (Germany) in 1997
- is certified to the EU Directive on Medical Devices MDD 93/42/EEC and to the latest DIN EN ISO 13485
- has grown to be one of the leading manufacturers of devices for neurophysiological research (*i.e. signal recording and analysis software,* electrode caps, amplifiers, accessories and consumables)
- has a worldwide network of 27 distributing companies in over 50 countries
- is a small company with 46 employees today

- Headquarters in Gilching (36 persons)
- Subsidiary in Freiburg (10 persons)
 - Software development only

MANAGEMENT

COMPANY STRUCTURE

- Sales
- Office Management
- Logistics
- Marketing
- R&D (Hard-/Software Development, Usability, Production, Research Cooperation)
- Quality Management, Technical Writing
- Scientific & Technical Support
- Accounting & HR
- > IT

HEADQUARTERS

Brain Products GmbH

SERVED APPLICATIONS

- EEG / EP (Evoked Potentials) / ERP (Event Related Potentials)
- BCI (Brain Computer Interfaces)
- BMI (Brain Machine Interfaces)
- Biofeedback
- Extreme EEG / wireless EEG
- EEG/fMRI co-registrations
- EEG/TMS co-registrations
- EEG/MEG co-registrations
- Sleep Research
- Behavioral Science

PRODUCT RANGE

- EEG caps: actiCAP, BrainCap, BrainCap MR, EasyCap
- Amplifiers: V-Amp, BrainAmp, BrainAmp MR / ExG, actiCHamp (new)
- Accessories: various electrodes, sensors, cables, power pack
- BCI package; wireless data transfer system MOVE (new)
- Equipment for EEG/fMRI
- Software solutions: Analyzer 2, BrainVision Recorder, RecView, PyCorder

SOFTWARE DEVELOPMENT

Topics and tasks:

- 1. Data Exploration and Statistics
- 2. Source localization
- 3. Segment analysis and visualisation (single trial analysis)
- 4. Improved Artifact Detection
- 5. Eye-tracker methods
- 6. Sleep scoring, advanced

SCIENTIFIC WORK

- Brain Products participates in more than 30 conferences every year.
 - HBM Human Brain Mapping
 - ISMRM International Society for Magnetic Resonance in Medicine
 - SfN Society for Neuroscience
 - SPR Society for Psychophysiological Research
- We offer several workshops at different levels and in various countries.
 - EEG & fMRI
 - Analyzer
 - Basics of recording EEG/ERP

PHILOSOPHY

- All of our products have been developed and designed in very close cooperation with various renowned universities and research institutes.
- New ideas and thoughts are always welcome.
- Innovations and improvements are created by competence and continuity.

Decision to join European research networks in 2011

EUROPEAN RESEARCH COOPERATIONS

Since 2012:

Participation in Marie Curie Programme, Initial Training Networks funded by the European Union

 ACT – Action research: Improving understanding and methodologies in early development Our focus: EEG measurements

- NETT Neural Engineering Transformative Technology (Associate partner) our focus: Brain Computer Interfaces
- LanPercept Language and Perception
 (Associate partner) our focus: combined EEG and eye-tracking methods

EUROPEAN RESEARCH COOPERATIONS

New project:

INDIREA

Individualised Diagnostics and Rehabilitation of Attention

Our focus:

Procedures for EEG biofeedback training

Topic is still to be discussed - 1 ESR for 3 years

OUR ROLE in the network

- 1. Project supervision for 1 ESR
- 2. Generic skills training:

Project management, time management, marketing tools, introduction to intellectual property management (IPR)

3. Intensive training:

EEG recording in theory and practice, data collection, filtering and amplification, methods of analysis, source localization, frequency decomposition and oscillation analysis
