

Overview

The aim of this event is to raise awareness about stroke, stroke services and stroke research.

Everyone is welcome!

There will be a series of short 10 minute talks given by the Stroke Association and Oxford researchers working on stroke related topics (13:00-15:00).

The talks will be followed by stands run by organisations and local support services, blood pressure testing, research demonstrations and research poster presentations (15:00-17:00).

Please contact Ms. Rachel King for more information.
