

Course Structure for Psychology, Philosophy & Linguistic Students

1st YEAR	TERM 1	Prelims For all subjects	All students will study 3 Introductory Courses:	Psychology & Philosophy students typically take:	Psychology & Linguistics students typically take:	Philosophy & Linguistics students typically take:				
	Term 2									
Preliminary Examinations										
After the Prelim exams, students can choose to continue a bipartite degree (Psychology & Philosophy, Psychology & Linguistics or Philosophy & Linguistics, or, subject to their college's approval, a tripartite degree (Psychology, Philosophy & Linguistics). Prelim results do not count towards the final degree.										
2nd Year	Term 3	Part I Psychology Core Modules	Students choosing Psychology will study 4 Core Modules in Experimental Psychology in Terms 3-5 from the following :	Students choosing Philosophy will study between 3 and 5 Special Subjects in Philosophy in Terms 3-8 (examples below):	There are no 2 nd Year Examinations for Philosophy and Linguistics.	PPL students studying Psychology must decide on the overall balance of Psychology to that of Philosophy and/or Linguistics. In total they must take 8 papers , out of which the Part 1 Psychology Exams taken at the end of Term 5 counts as 2 papers . If you wish to concentrate on more Philosophy/Linguistics (a 3:5 split) then you can take just 1 Psychology Advanced Option and 5 papers in other subjects.				
	Term 4						Study Statistics & Experimental Design			
	Term 5							Carry out Lab- Based Practical Work		
	Part 1 Examinations (Psychology) results count 20% towards the final degree						Students choosing Linguistics will study between 3 and 5 Special Subjects in Linguistics in Terms 3-8 (examples below):		Similarly, students studying Philosophy & Linguistics can choose the relevant balance of the two subjects.	
	Term 6							Part II		If you wish to concentrate 50/50 (4:4) on Psychology and Philosophy/Linguistics then you will take 2 Psychology Advanced Options in the 3 rd Year and 4 papers in other subjects.
Term 7	Psychology Advanced Options	If you wish to concentrate more on Psychology (5:3 split in favour of Psychology) then you will take 3 Psychology Advanced Options and 3 papers in other subjects. One paper may be Research Project or a Library Dissertation								
Term 8			Carry out Lab- Based Practical Work
